# OUR DIRECTOR

*"AT KENYA AERONAUTICAL COLLEGE, WE DON'T JUST TEACH AVIATION; WE IGNITE DREAMS, BUILD EXPERTISE, AND EMPOWER THE NEXT GENERATION TO SOAR BEYOND THE SKIES."*

AKETCH

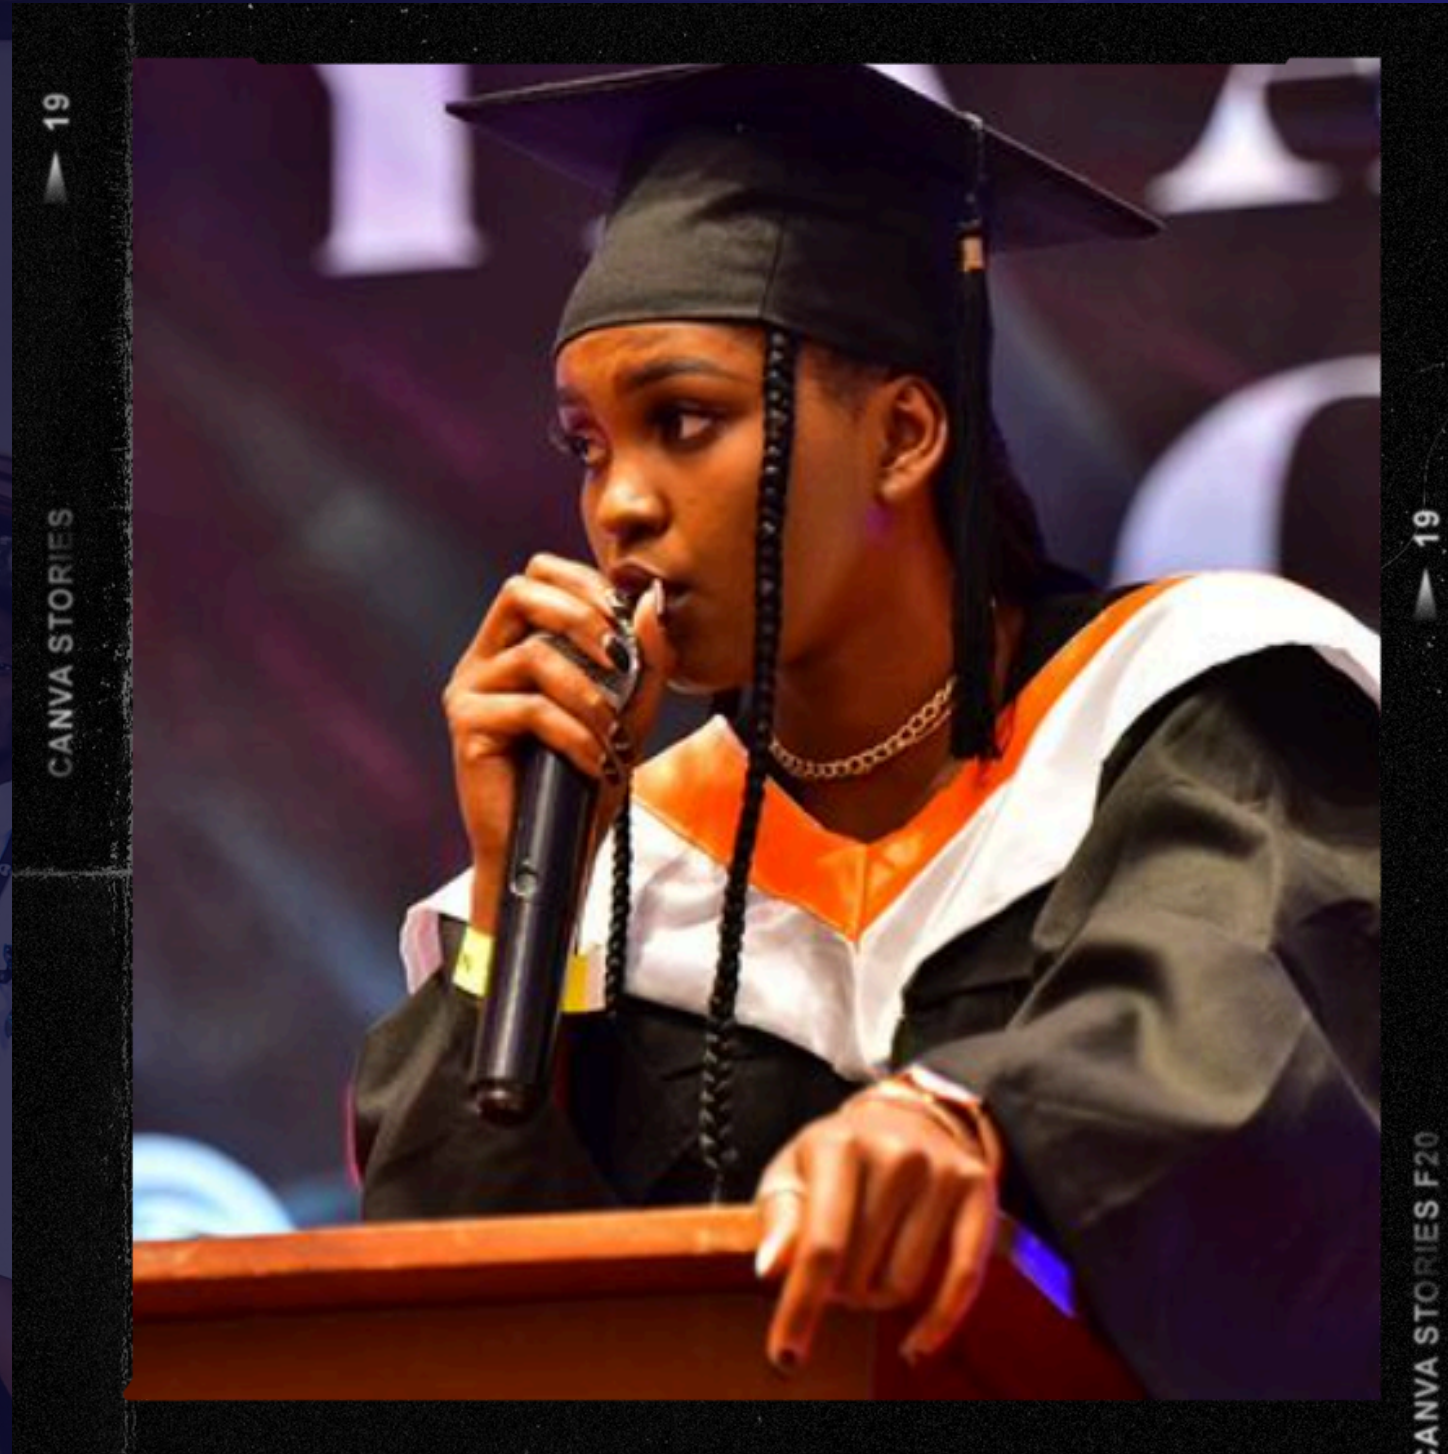

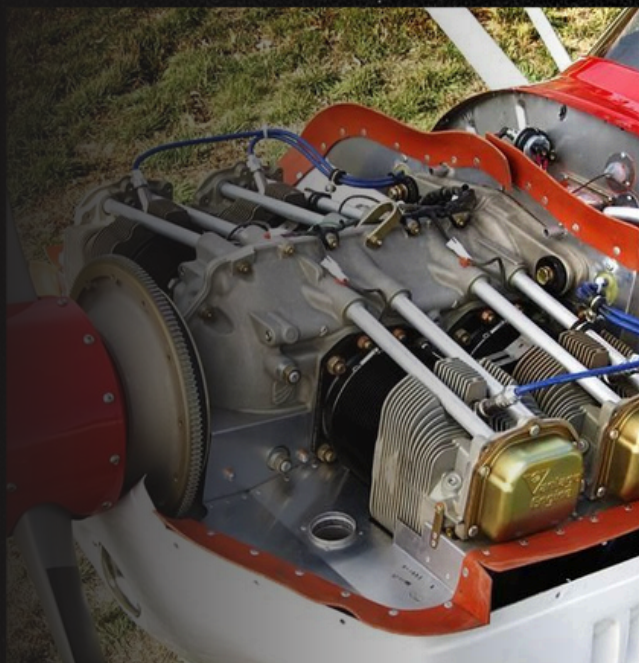

"At KAC, we don't just train students; we transform them into professionals ready to soar in the global aviation industry. Our mission is to be the beacon of excellence in aviation education, and we achieve this by equipping our students with the skills, knowledge, and discipline needed to thrive in this dynamic field."

## **MR NICHOLAS ENGOKE**

*FROM THE MANAGERS OFFICE*

"We offer a wide range of programs, from Aircraft Maintenance Engineering to Cabin Crew and Flight Dispatch. These are not just courses—they are gateways to fulfilling careers. Every program is designed with precision, ensuring our students are ready for the challenges of the aviation industry."

# History

2003

Kenya Aeronautical College is an aviation training institution based in Wilson Airport – Nairobi, Kenya. We first began in Nairobi, Kenya, in 2003 and have maintained a tradition of excellence in education throughout our expansion of aviation career influence over more than a decade. Finally, we have students from all over Africa in most countries that train with us. We are glad that we have recognition in Nigeria, Uganda, South Sudan, Democratic Republic of Congo, Tanzania and many other countries that I can mention.

2011

KAC Flying School, formerly Skymax Aviation Limited, is a KCAA-approved Aviation Training Organization (ATO) based at Wilson Airport. Established and certified in 2011, it aims to provide professional flight training services in a well-equipped and supervised environment. The school operates from Wilson and Malindi airports, offering flying and theoretical training programs using a fleet of C150, C172 and PA-34 aircraft. Its experienced management ensures the highest standards of quality and oversight.

2020

Our expansive hangar is engineered to accommodate aircraft with a wingspan up to that of an Embraer 120, making it one of the largest maintenance facilities in the region. We specialize in the meticulous maintenance of Cessna 100 and 200 series, as well as the PA 28 and PA 34 series aircraft. With a dedicated team of industry experts and a proven track record of maintaining over 500 aircraft, we are committed to delivering excellence in every service we provide. Discover why KAC Aviation Engineering Limited is the preferred choice for aviation maintenance in Kenya and beyond.
